Korn Ferry Interview Architect™

Build a foundation for successful talent selection.

Overview.

Your organization invests valuable time and resources into the hiring process, wanting final decisions based on more than impressive resumes and positive hunches. You need to be confident that candidates possess the competencies needed for immediate performance on the job. However, typical interview practices do not distinguish performers from non-performers, often resulting in ineffective and costly hires.

Take the guesswork out with Korn Ferry Interview Architect™, a straightforward set of tools that are designed to effectively:

- Standardize interview preparation, execution, and evaluation at all levels throughout your organization.
- Increase the ability to select successful talent for every role, at every level.
- Revolutionize your interview process.

Make the right people decisions.

Research shows that organizations make better people decisions when they follow this three-level, decision making process:

- Interview preparations: identify interview criteria including critical competencies, skills, experience, and perspectives.
- Structured interviews: ask competency-based, standardized questions, and listen for specific responses.
- Post-interview evaluation: use data-based rigor to compare candidates.

At a glance:

- Create focused and effective interviews at all levels of your organization.
- Select the right people for the right roles, every time.
- Distinguish top talent from a wide pool of candidates.

As much as 80% of employee turnover is due to bad hiring decisions.
